

## **Lehi City Heritage Day Guidelines for Choosing the Lehi Walk of Fame**

**Lehi City has established a Pioneer Walk of Fame. Each year during the Lehi Heritage Days on Labor Day, new honorees will be inducted. To help maintain a standard for the selection of these honorees, the following guidelines are entered.**

- **Honorees will be selected either as a couple or as an individual.**
- **The honorees should have been exemplified historical importance to the History of Lehi. The mission of “The purpose of the Lehi Archives is to collect, obtain, record, preserve, protect, educate, and promote the History of Lehi and its peoples, and to document Lehi’s impact on the American West, yesterday, today and forever.” The honorees should have exemplified diligence in preserving and honoring the History of Lehi.**
- **Currently it has been chosen to honor men and women who at least one of the couple is alive. While the Selection Committee has the right to select deceased individuals, the Board has chosen to focus on those that have not passed on.**
- **Selection Committee can only choose from those that have been nominated by a citizen of Lehi. The Nominations have to be in writing and signed. Nominations will be accepted by the Board from April 1st of each year until the Honoree Selection date in June of each year.**
- **Criteria should be on their service to the City of Lehi. This service could be through government and civic service, business community, church and charity service and through efforts to preserve the History and lifestyle of Lehi. Lifetimes of service should be examined.**
- **The Selection Committee will have the right to vote for 10 honorees (either couples or individuals). Their number one choice will receive 10 votes, second 9 votes and so on. Numbers will be tallied and honorees chosen.**
